## Scanstrut Sign Worldwide Supply Agreement with Navico

Scanstrut Ltd, designers and manufacturers of mounting solutions for marine electronics, are pleased to announce a new worldwide agreement with electronics group Navico.

Confirming their status as market leader, Scanstrut will be supplying their most popular sail and powerboat products to the two Navico logistics centres in Europe and Asia Pacific.

Head of International Sales at Scanstrut, Carine Cooper comments "Our new worldwide contract with Navico is a significant step forward from the European agreement we already enjoyed with Simrad the two previous years. Our association with this major electronics group firmly puts Scanstrut on the map as the leading provider of quality installation solutions".

"Scanstrut has been a supplier of radar mounts to Navico, formerly Simrad, for many years. We are continuing this successful relationship by expanding our quality radar mount offerings globally," says Louis Chemi, Navico EVP Product Management.

### **About Scanstrut Ltd**

Scanstrut is the international expert in the design and manufacture of installation solutions for marine electronics. Our extensive range offers high quality mounting options for radar, satcom, GPS, VHF antennas and navigation lights for powerboats, sailboats, commercial and military vessels.

Scanstrut mounts are endorsed and recommended worldwide by all leading marine electronics brands. This close liaison with marine electronics manufacturers adds to our in depth product knowledge and enables Scanstrut to offer products which will maximise the performance of your electronics.

Our head office is in Devon, near the South West coast of the UK. Our products are available worldwide through a highly knowledgeable distribution network covering more than 40 countries.

Scanstrut also offers a custom design and production service for international sail and powerboat builders. Our project team will develop the perfect installation solution for any new boat range whilst also reducing build costs and simplifying stock holding.

### **About Navico:**

Navico is the parent company to five well-established marine electronics brands: B&G, Eagle, Lowrance, Northstar and Simrad. Navico has approximately 2,500 employees globally and is headquartered in Oslo, Norway. The company has development and manufacturing facilities in Tulsa, Oklahoma, Acton, Massachusetts, Torrance, California, USA; Ensenada, Mexico; Egersund, Norway; Margate, Romsey, UK; and Auckland, New Zealand.
