Design Innovation Partner Quality Sustainability

The Story (So Far)

Scanstrut is a global leader in outdoor equipment design, pioneering cutting-edge outdoor technologies for over 40 years. Founded with a passion for enabling adventure, Scanstrut has grown into a globally recognized brand known for its quality, reliability, and innovation.

With a diverse product range, Scanstrut enhances the use of electronics, charging, and mounting systems in the most extreme outdoor conditions.

Scanstrut products are organized into four core categories: Mount, Charge, Air, and Seal. Proudly independent, Scanstrut operates from headquarters in both the UK and the USA.

Every innovation is born in-house, driven by a talented design and engineering team who carry ideas from concept to production. Scanstrut ensures that every product meets the highest standards and is trusted by customers in the toughest environments.

CABLE SEALS

Scanstrut cable seals provide a **100% watertight installation** without the need for messy sealants. Designed to eliminate time-consuming, substandard cable routing, this IP68 waterproof range ensures reliable performance – perfect for solar panels, light bars, and other electronics. Available in grey or black high-impact UV-stable plastic, anodized aluminum, or 316 stainless steel, these easy-fit cable seals reduce installation time and feature captive fastenings for straightforward assembly and reliable repeat installations.

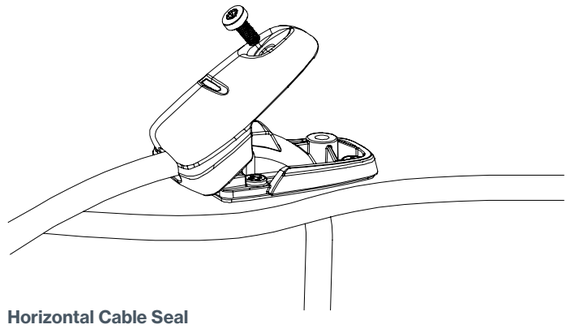

Horizontal Cable Seals

Horizontal cable seals eliminate time-consuming, sub-standard routing of cables and messy sealant to achieve a 100% watertight installation for your cables every time. Designed to fit a large range of cables, available in a single or double seal option.

Available in:

- 100% watertight
- Easy fit cable routing
- No messy sealant
- Perfect for solar panels, light bars & other electronics
- Ultra strong & impact resistant
- UV stable & hard wearing

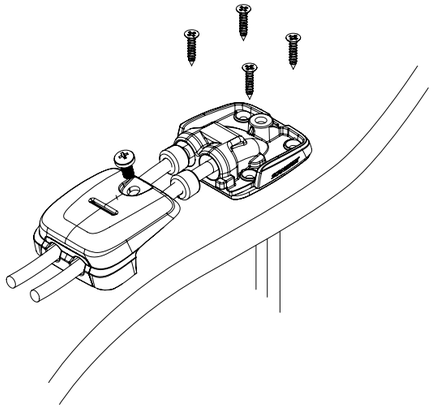

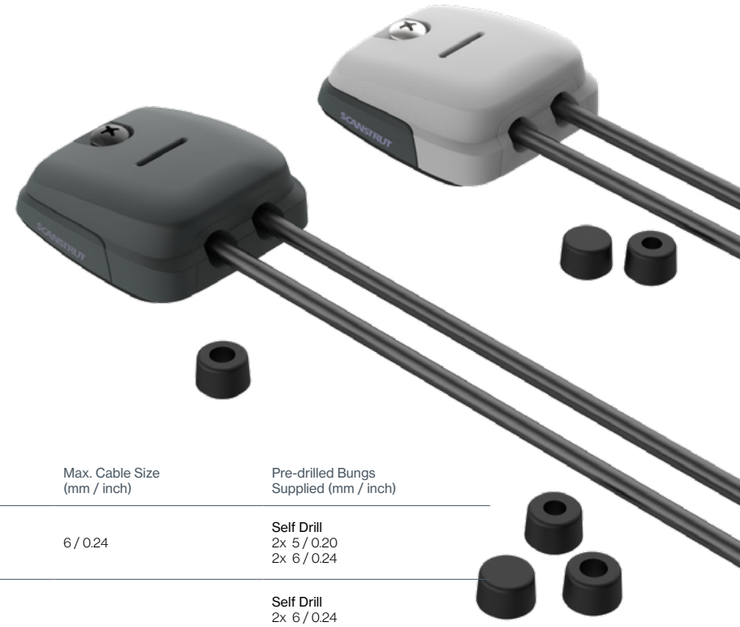

Horizontal Cable Seal
Designed for single cable installations

SKU	Colour	Min. Cable Size (mm / inch)	Max. Cable Size (mm / inch)	Pre-drilled Bungs Supplied (mm / inch)

NEW

Low Profile Cable Seals

This low-profile design reduces the overall seal height by over 70% when compared to the standard range by concealing the seal technology below the mounting surface. This results in a clean and more refined appearance and enables installation in the tightest of spaces.

Available in:

WATERPROOF CHARGING

Charge Your Devices, Whatever the Weather

Explore this extensive lineup of 12V waterproof chargers, designed to keep your electronics powered up in any weather and on any job. This collection features the world's first Qi wireless chargers built to withstand outdoor elements, along with our ultra-fast, outdoor-ready USB chargers for consistent device charging.

USB

SC-USB-03

ROKK Charge Pro. Fast Charge USB-A & USB-C Socket

ROKK Charge Pro is the ultimate onboard USB charger. Featuring a USB-A and USB-C charging port housed in an IPX6 waterproof design, this is the only USB-C charger on the market that remains waterproof while in use.

IP Rating IPX6 waterproof with 1, 2 or even no cables plugged in

Charging Ports USB-A & USB-C

USB-A
12V-3A = 36W

USB-C
12V-3A = 36W
20-3A = 60W

Standby draw 0.01W

Protocol QC & PD

SC-USB-02

ROKK Charge+ Waterproof Fast Charge Dual USB Socket

The ultimate rapid charge waterproof USB charger with dual-socket connectivity that can charge devices up to 3x faster than standard USB sockets. Featuring an ultra-low profile, that's perfect for any outdoor application.

IP Rating IPX6 waterproof with 1, 2 and even no cables plugged in

Charging Ports 2x USB-A

Output Type A 5V = 2.1A

Total output current 4.2A

Standby draw 0.01W

NEW

Flip Pro

The ultimate rapid USB chargers

The Scanstrut Flip Pro USB Charge range is an innovative charging solution engineered to offer dependable and rapid USB charging in outdoor environments.

This charger lineup combines robust construction, cutting-edge USB technology, and an intuitive design to ensure a hassle-free charging experience in any weather or work environment.

32mm / 1.26” diameter cut hole and all shipped with front-facing bezel & match in new design aesthetic.

SC-CW-01F

ROKK Wireless - Hidden. 10W Waterproof Wireless charger 12/24V

Sub-surface installation hidden from view. Ideal for charging through worktops, allowing for custom branding to maintain your business aesthetic.. Requires pocket or bond install.

SC-CW-02F

ROKK Wireless - Surface. 10W Waterproof Wireless charger 12/24V

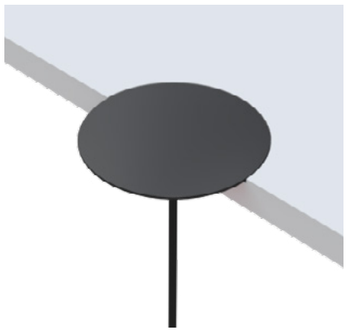

A compact, low-profile charge pad designed to fit any smooth surface. Features a sleek, contemporary look with a strong rubber grip and two-tone colour scheme.

SC-CW-04F

ROKK Wireless - Active. 10W Waterproof Wireless phone charging mount 12/24V

A mount-and-charge system, high friction grip, and single-handed docking capability. It securely holds and wirelessly charges your phone even in tough conditions, keeping it within reach, charged, and ready to go.

SC-CW-07F

ROKK Wireless - Sub. 10W Waterproof Wireless charger 12/24V

Engineered for a factory-fit installation, it seamlessly integrates into any interior. Effortlessly bond and wirelessly charge through thin, non-metallic materials like EVA foam or carpet. Designed to support custom branding, it maintains a clean, unchanged aesthetic.

5 YEAR WARRANTY

NEW

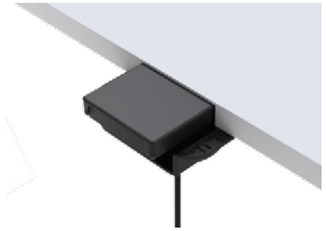

3 Coil

Wireless Charge

IPX5 - IPX6 Waterproof

Output 15W

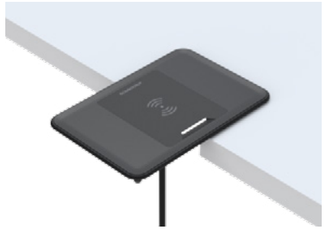

12V / 24V Charge

SC-CW-1GT

Waterproof Wireless Charger - Hidden 3 Coil

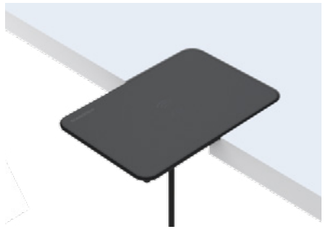

Sub-surface installation hidden from view. Ideal for charging through worktops, allowing for custom branding to maintain your business aesthetic.

SC-CW-2GT

Waterproof Wireless Charger - Surface 3 Coil

Low-profile, flush-mounted charge pad designed to fit any smooth surface. Features a top LED indicator and a sleek, contemporary look with a two-tone colour scheme, complimenting it's surrondings.

SC-CW-7GT

Waterproof Wireless Charger - Sub 3 Coil

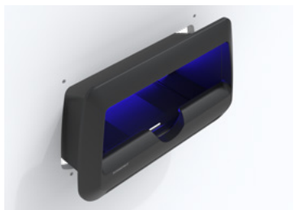

Engineered for a factory-fit installation, it seamlessly integrates into any interior. Effortlessly bond and wirelessly charge through thin, non-metallic materials like EVA foam or carpet. Designed to support custom branding, it maintains a clean, unchanged aesthetic.

SC-CW-9GT

Waterproof Wireless Charger - Cove 3 Coil

Securely holds and wirelessly charges your phone, making it ideal for integration into consoles, seating, and cabinetry. Its rounded corners and tapered front design prevent snagging, ensuring a sleek and seamless look.

SC-CW-10GT

Waterproof Wireless Charger - Cove LED 3 Coil

Safely houses and wirelessly charges your phone. Perfect for integration into consoles, seating, and cabinetry. Rounded corners and tapered front eliminate snagging risks. Features an inbuilt RGB LED light bar and top LED charging indicator.

What is a 3-Coil Charger?

A charger with 3 overlapping coils maximizes efficiency and power, ensuring reliable outdoor waterproof charging while easily finding the sweet spot for any phone position.

5 YEAR WARRANTY

ROKK Mini

ROKK Mini is a compact and multi-adjustable mounting system for smartphones, tablets, projectors, cameras and more! Small in size but big on features, ROKK mini is the most durable and reliable mount for your onboard tech.
